SAFETY SPRAY BUFF

(Shake Well Before Using)

Safety Spray Buff contains patented SURE GRIP ABRASIVE CRYSTALS. Polishing with this compound produces millions of microscopic abrasions which increase surface traction and safety under foot.

DIRECTIONS FOR USE:

DISPENSE WITH TRIGGER SPRAY BOTTLE

For use with propane, battery or electric burnishing machines. Use Safety Spray Buff utilizing normal spray buff techniques. Performance will continue to improve as more of the crystals are uniformly distributed over the surface of the pad and fewer applications of the spray will be required. Scuffs and marks are removed during the process. A second pass greatly enhances the gloss.

CAUTION: Avoid contact with eyes. In case of eye contact, flush thoroughly with water. If irritation persists get medical attention. **KEEP OUT OF REACH OF CHILDREN.**
